

# Congratulations!

## You Reached Your Goal!

We have contacted the National Labor Relations Board (NLRB) and filed for an election (see video at [www.voteyesiam.com/jf](http://www.voteyesiam.com/jf))

**BEWARE OF Jorgensen Forge's NEW ANTIUNION LAWYER/EXPERT** – We have received inside information that the company plans to hire an anti-worker lawyer. Jorgensen Forge's shady lawyer will be an expert in lies, deceit and misrepresentation in order to scare and intimidate you.

The tactics used by the company will not be truthful, but will be presented as if the company is all knowing and to be trusted because 'they have your best interests in mind.' If that doesn't work, they will try to have managers act like your friend and make empty promises.

The Machinists Union has contacted a law firm to ensure your federal rights are protected during this process!

## Don't be misled - get the facts and know the truth.
